

Many thanks to Midland Counties Canine Society for Inviting me to judge, My thanks also to my efficient stewards.

I was delighted to receive such a large entry. I was a more than a little concerned to find such a variety in type. Movement was somewhat erratic in a few, Particularly rear movement. Narrow bottom jaws with not enough room for teeth were also evident. I was however more than delighted with my class winners and those placed. Some of the youngsters really give hope for the future of this wonderful breed.
